# LOOP

## TECHNICAL CHARACTERISTICS

### TOPS

52 mm thick top composed by 2 tops:

- internal wood fiber panel in medium density (MDF) light weight, 22 mm thick **white lacquered finish**
- External wood fiber panel in medium density (MDF) light weight, 28 mm thick in different finishes (wood veneered, covered in leather or matt lacquered)

The 2 tops are separated by a 2 mm gap.

### LEGS

52 mm thick legs, composed by 2 panels:

- internal panel 22 mm thick in white lacquered finish
- external panel 28 mm thick, in wood veneer, in glossy/matt lacquer finish or steel mirror effect.

The 2 panels are separated by a 2 mm gap.

### MODESTY PANEL

The modesty panel is a box composed of 2 vertical panels 18 mm thick that come down to the floor. The modesty panel allows to store the cable management and carry cables to the desk level. It can also be used as a secret locked compartment. In the same leg finish.

### RECEPTION PANEL

Back-painted extralight glazed panel coupled with a white lacquered panel, 18 mm thick, with design pattern (also customizable).

### ELECTRIFICATION

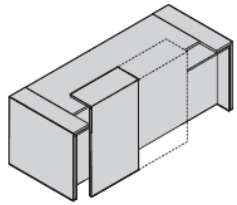

The desktop can be easily electrified by sliding a part of the top allowing access to a cable tray for the installation of the sockets and the cables under the top.
